

# Charger Pro-Series™

## Solve your water problems with the efficiency of computerized control.

The Charger Pro-Series whole-house water conditioners provide superior quality water. These cost-effective systems utilize hi-tech computer control valves that ensure both quality and efficiency. Each unit is designed to waste the least amount of water and use the least amount of salt or potassium while ensuring the highest quality water possible. The multi-layered filter media is made up of high grade materials designed specifically for San Diego's water conditions, manufactured in the USA, and built to last.

Hair and skin are soft and silky

Food tastes better

Dishes are cleaner

Better tasting beverages

# CHARGER

# Charger Pro-Series™

## Computerized Control For Maximum Efficiency

- ▶ Efficient computer controls that maximize effectiveness
- ▶ Measures water usage to backwash and recharge when necessary
- ▶ Creates auto reserve so you never run out of quality water
- ▶ Double backwash ensures a clean filter media bed
- ▶ Ensures consistent superior quality water

## A Multi-layered Filter Bed For Maximum Effectiveness Coconut Base Carbon

- ▶ Coconut carbons are harder, more resistant to abrasion, and lower in ash than similar grades of coal-based carbons
- ▶ Activated carbon protects the filter media while refining your water

Your Authorized Independent Dealer:

Contaminants or other substances which can be removed by the system are not necessarily in your water. Operational maintenance and replacement requirements are essential for the product to perform as advertised. Actual savings achieved are dependent on your particular spending habits and usage levels.
